Howard brings to Anzer more than 30 years of senior management experience in the high technology industry, as well as more than 10 years in the healthcare field.

In addition to having been International Vice President, Geac Computer Corporation and a Divisional Controller at Bombardier, he was also President and CEO of Neotel International, a company engaged in biometrics and corporate internet security. From 2003 to 2006, Howard served concurrently as Chair of the Community Care Access Centres of York Region (2003-2006) and of Ontario (OACCAC: 2005-2006).

News & Announcements

Regional Falls Program, Orillia Soldiers' Memorial Hospital

Anzer is now providing a software solution for the North Simcoe Muskoka LHIN Regional Falls Program. The NSM Regional Falls Program targets seniors across the region. The program will include a falls screening program, local falls clinics, expansion of the Orillia Soldiers Memorial Hospital Geriatric Day Hospital, and support for area Emergency Departments.

Acosys Alliance

Anzer IT Solutions takes pleasure in announcing that it has signed a strategic alliance with Acosys Consulting Services Inc. in Montreal. The agreement provides for Acosys to market the full range of Anzer's clinical information systems to the Aboriginal and First Nations markets throughout Canada.

Acosys is an Aboriginal-owned business that provides professional services in information technology and human resources on a national basis.

Hawkesbury & District General Hospital

Anzer wishes to welcome Hawkesbury as one of our Health Information System (HIS) clients.

New Consultant & Product Specialist

Anzer IT Solutions is pleased to report that Dr. Tom Goff, Ph.D, CMC has agreed to be one of our company's expert consultants and product specialists.

Dr. Goff has more than 25 years of experience in developing, training, implementing, and project management in the areas of case and clinical management systems.

Tom has worked extensively in case management systems in health and Social services with clients such as Toronto East General, North York General, Niagara Public Health, Six Nations of the Grand River, New Brunswick First Nation Child and Family Services, to name only a few.

Anzer is pleased to be having Tom on our team and looks forward to his contribution.

OCCAN Version 2.0

Anzer CCS Users,

We will be releasing a new version to all CCS clients by the end of September. Included in the latest package are new features and enhancements suggested by the CCS users.

You will receive release notes regarding the update and you may also call and book a time for a personal review and demonstration.

Call 905-896-1046 for more information.

CCS User Group Meeting

We are looking at scheduling a user group meeting for the end of September or the end of October this year.

We have had CCS user groups in the past, and have found it to be a great way for our users to meet each other and discuss development directions. Users have also found it to be informative as a general way for them to hear how the other teams may be utilizing the system that they had not considered.

We are looking at holding the event in Toronto, as this seems to be the most central location for all of our clients.

Let us know if there are specific dates that work best for you, and if you or any members of your team are interested in attending.

Please keep in mind that we will not be able to accommodate all schedules, but we will do our best to ensure that the event is held at a time that is most convenient for the majority.

RSVP to Howard Phee (pheho@anzer.com) if you plan to attend the meeting.

- **Specify your preferred dates, either September 29th, September 30th, October 28th or October 29th**
- **Specify the number of individuals that will be representing your team.**
